

Changing dash display from KPH to MPH

Using the picture below for reference use the following sequence of actions to change your display to USA display standards.

1. Push the upper button (A) and hold while turning the ignition on.
2. Use the lower button (B) to toggle the setting until you reach "SET UNIT"
3. Once "SET UNIT" is reached hold the lower button (B) for 5 seconds
4. Now choose your country using the lower button (B): (ie. USA, CND, EU)
5. Once correct country is selected hold lower button (B) until MEM is displayed
6. Turn the ignition off

Your bike is now converted to your selected country and will read in that countries display standards
