

CHAIN PASTE

Lubricating Paste for Road Motorcycle Chains

Part of MOTUL MC Care Chain Maintenance Line

APPLICATION

MOTUL Chain Paste is a lubricating paste specially designed to lubricate and protect chains of road motorcycles and karts.

- Specially recommended for very fast bikes.
- Suitable for all type of road bikes and go-karts.
- Compatible with O-Ring, X-Ring, and Z-Ring chains.

PERFORMANCE

- Adheres to chain even at high speed.
- Paste in tube with brush applicator tip provides accuracy when applying to chain.
- Reduces friction to increase power.
- Increases chain lifespan.
- Water and salt resistant. Protects the chain against corrosion.
- Does not affect O-rings.
- Practical, cost effective, and non-flammable.
- Easy to store under the seat of the bike.
- One 150ml tube allows for approximately 10 applications.

RECOMMENDED USE

Maintaining the chain will increase its life, reduce friction and wear, decrease power loss, and protect it from corrosion.

1. Clean the chain with MOTUL Chain Clean.
2. Apply MOTUL Chain Paste to the whole length of the chain using the brush applicator tip. A small quantity of paste is enough to lubricate all the chain. Do not apply a thick layer.
3. Spread the paste on the whole chain, especially the inner portion until there is a thin, even layer. White color helps to show lube coverage on chain.
4. MOTUL Chain Paste adheres completely after a few minutes of drying.

SECURITY & SAFETY PRECAUTIONS

Refer to the information mentioned on the label and on the MSDS sheet.
