FOCUS

A racing spirit and assertiveness distinguish this glove designed to let riders attack the track in complete safety with excellent ergonomics and technicality, thanks to elasticated inserts, pre-curved fingers, and a tightening strap. Knuckles with steel and carbon composite inserts with stiffening ribbing, carbon inserts on the fingers and little finger reinforced with TPU inserts, construction with one single panel of leather for the protection of the stitching on the little finger side of hand and a reinforced palm are only a few of the technical features adopted in this glove available also in a ladies' version.
