## FOCUS

The engine that throbs with vengeance at every twist of the accelerator, the coast road that winds around the cliffs plunging to the sea, the perfect asphalt that begs the rider to drop into every curve: summer with its hot sunny days is the season most loved by motorcycle rider. Aspidè is designed for the more athletic riders in search of a technical jacket with an assertive look. Provided with aluminium plates on the shoulders and removable composite protectors, this jacket constructed with elasticated fabric for a tight fit and smoother movement in the saddle vaunts front and rear air vents for the maximum comfort in the hottest weather.
