

CORSE DYNAMICS Low Profile Dash Mounts: Sport Classic / GT1000

Included Components: dash mounts (2) & button head Allen bolts (2)

Tools Required: M4 Allen Wrench & M5 Allen Wrench

Remove the two circled bolts in the following picture:

Install the supplied mounts as pictured below with the supplied button head bolts:

Using the factory bolts mount the gauges onto the brackets. Tolerances vary on the headlight location, if the gauge contacts the headlight use a washer to space the gauges up to avoid contact with the headlight.
