

FEATURES

Main technical features

- Composite inserts in carbon fiber on the knuckles, back and joints of the fingers
- Polyurethane insert on the palm
- Distortion Control on little finger
- Certified as PPE to EN 13594 Standard cat. II lev. 1

MAIN MATERIALS

Main materials

- Cowhide leather
- Palm in goatskin
- Kevlar® fiber stitching
- Amica Suede leather reinforcement between thumb and index on the left hand
- Digital Suede leather reinforcement between thumb and index and fingertips of index and middle finger of right hand
- One single leather panel to the size of the hand

COMFORT

Comfort Ergonomics

- Pre-curved fingers
- Tightening strap
- Elasticated inserts
- Micro-injection reinforcement on palm
- Microelastic elasticated inserts

Comfort Temperature

- Perforation on inner side of fingers

OTHERS

Others General

- Soft inserts

Patents

- Microelastic (European patent pending)

Fit

- Man cod. 1815631

Sizes

- Man XS/XXL

Focus

Dedicated to those with a sports road riding approach, Druids S-ST combines exceptional comfort and extraordinary light weight with a high level of protection, through carbon inserts on the knuckles, back and base of the fingers and reinforced palm with TPR insert. Constructed with a single panel of leather covering the side of the hand for greater abrasion resistance, this short glove is made of cowhide on the back and goatskin on the palm. Elasticated inserts and innovative Microelastic inserts ensure excellent freedom of movement of the hand, to avoid muscle fatigue even during extreme riding, while the micro-injected insert on the palm reduces the risk of blistering, offering even better grip on the handlebar.
