Focus

With racing spirit and assertiveness, this short cowhide glove was designed to attack the road in the saddle of your bike, offering excellent ergonomics and protection, through patented Microelastic inserts and ergonomics designed for sports riding. With carbon fibre composite inserts on the knuckles and fingers and construction of the little finger reinforced with TPU inserts, Carbon Cover ST is the choice for the most demanding sport tourers. This glove, also available in the lady's version, is completed by a goatskin palm, construction with a single panel of leather covering the seams on the edge of the hand, tightening strap and perforation on the inside of the fingers.
