FOCUS

Continuous innovation and experience on racetracks around the world have lead to the development of this racing glove. Excellent ergonomics are matched with equivalent technical level guarantee by the Kevlar® jersey, construction with single panel of leather for the protector of the stitching on the little finger side of hand, and the reinforced palm. Extraordinarily stiff steel inserts faced with carbon, little finger construction reinforced with internal inserts and Distortion Control, inserts on the knuckles, the back of the hand, the palm, and head of the ulna bone complete this racing glove.
